Blend of  
**Functionality & Design**

Prince Pipes has been an integral part of millions of household.  
Now we bring to you an eclectic range of **Faucets & Sanitary-  
ware to make the water experience a lifestyle.**

# ABOUT THE COMPANY

Prince Pipes, incorporated in 1987, has been committed to driving the piping industry forward through innovative, Make in India manufacturing. With investments in advanced technology and nationwide production facilities, the brand continues to strengthen India's self-reliance in world-class piping solutions.

Backed by a 40-year legacy, Prince Pipes and Fittings Ltd., the parent brand of Aquel — is today one of India's largest integrated piping solution providers.

Proudly recognized as "India ki Pragati ka Taj," the company supports the nation's growth with its extensive range of PVC, UPVC, CPVC, and PPR products, enabling reliable infrastructure across sectors.

Aquel is a leading bathware company renowned for its commitment to quality and innovation. Our state-of-the-art manufacturing facility in Bhuj, Gujarat, spans over 1,10,000 square feet. At the forefront of technological advancement, we are one of the few Indian companies to adopt advanced technology early on.

Our facility is equipped with cutting-edge machinery, including GDC, CNC, VMC, robotic grinders, and polishers. Additionally, we are proud to operate India's first fully automated chrome plating plant. These innovations ensure our products meet the highest standards of precision, durability, and aesthetics, solidifying Aquel's leadership in the bathware industry.

# FROM INSPIRATION TO CREATION

## FLOWING WITH GRACE IN THE BATH AND KITCHEN

Welcome to the new world. Where interiors have transformed beyond the conventional spaces to reflect your personal style in the bath space. Nothing else compares to this in terms of status and style.

Aquel takes pride in introducing its very own Bathware range. Our suite of products includes showers, faucets, washbasins, vertical & pan toilets plus accessories. The range is comfortable, easy to use and integrates seamlessly into a wide range of eclectic, modern interior styles. All our products emphasize fashion, newness, and individualism.

Our vision is to create a new wellness zone in Bathware, making it more enjoyable than ever. A range that drains away fatigue, deeply connecting with you both physically and mentally. Come, enhance your home with the new range of bath décor from Aquel, inspired by European designs to adorn every space.

# FAUCETS

The Aquel faucet range takes the lead when it comes to sheer elegance & beauty. The suite unfolds a mesmerising series of shapes & finishes. On par with world standards for design & quality, they sit majestically in your powder room. Come, take a look at our svelte collections.

# SPECIAL FEATURES AND TECHNOLOGY

## EUROPEAN CARTRIDGE

A critical element of the water dispensing system, these cartridges are tested up to 5-10 lakh cycles\* for effectively controlling the flow of both the hot & cold water. The meticulous design results in effortless and firm lever operation.

## BRASS HEADWORKS

We use a specially designed & technically advanced quarter turn ceramic disc mechanism for our spindles. This reduces wear & tear with a quarter turn rotation instead of the usual 90° rotation, ensuring enhanced faucet life.

## SUPERIOR ELECTROPLATING

Slack double nickel coating & chrome finish gives our faucets a special mirror like sheen.

## EUROPEAN AERATORS

Made from food grade plastic, our aerators have a gentle, splash free water flow. The design technology ensures that 50% water is saved with every usage. Aquel has a wide range of aerators which help in saving 5 to 8 litres of water per minute.

## INSTALLATION AND MAINTENANCE

Aquel faucets are designed to be installed with effortless convenience. We bring you the highest standards of quality, which in the long term gives you the added advantage of low maintenance.

# TOILETS

Our stylish toilets are meticulously crafted with a focus on comfort. These specially designed toilets prioritize the ergonomic needs of individuals, ensuring optimal comfort and a pleasant experience for users.

# FEATURES AND TECHNOLOGY

## TORNADO FLUSHING

Our tornado flushing features two powerful nozzles that create a centrifugal, cyclonic rinsing action that reduces waste build up and keeps the bowl cleaner.

## SIPHONIC FLUSHING

Our siphonic flush system uses vacuum to pull waste from the toilet bowl into the trapway.

## RIMLESS DESIGN

These toilets offer enhanced hygiene due to their design without a rim, making them easier to clean and reducing areas where bacteria and germs can accumulate. A popular choice for those seeking a more hygienic and stylish toilet option.

## HIDDEN INSTALLATION

Architects' preferred choice - Blind Installation is a unique hidden fixation system for Toilets. It not only makes the toilet design aesthetically pleasing but also makes the toilet easy to maintain..

## STYLISH IN DESIGN

Our stylish toilets are designed with a focus on ergonomics and individual comfort. These specially designed toilets prioritize the ergonomic needs of individuals, ensuring optimal comfort and a pleasant experience.

## DUAL FLUSHING

The dual flushing in toilets allows users to choose between two different flush options. Typically, a full flush for solid waste and a reduced flush for liquid waste. This system helps conserve water by giving users the ability to select the appropriate flush.

## DETACHABLE SEAT COVER

Our detachable seat cover is a toilet seat that can be easily removed and reattached. This feature offers practical benefits such as simplified cleaning and maintenance, ensuring hygiene and cleanliness in the bathroom.

## GLAZED TRAP

Our glazed trap is a smooth, glossy coating on the interior surface of a toilet's plumbing trap. It prevents waste buildup, improves flow, and enhances hygiene by resisting bacterial growth and facilitating easier cleaning.
